

Cypress Advanced On-line

Course Length

 4 Days (4 x 3.5 hour sessions on-line, please note that session length may vary depending on number of delegates and other factors)

Description

- Advanced course extending our Cypress Essentials course to cover real-world challenges that you can overcome with JavaScript and advanced Cypress features.
- Also includes remote execution through either a Continuous Integration Server, or using GitHub Actions

Delivery Method

- Live online training course (Instructor-Led), delivered over 4 sessions of approximately 3.5 hours each. You will be provided a workbook for the course and homework exercises between sessions.
- Sessions are recorded so you can review what you have learned at a later date

Course Pre-requisites

- Cypress Essentials or
- basic knowledge of Cypress

Key Points
